

Sofie Muller (1974)

Underground, 2012

Bronze feet with charcoal
1000 x 650 x 600 mm.

Certificaat on the back of the museum
All feet are signed

Artist description:

The oeuvre of Sofie Muller moves around the narrative lines of physicality, sex, sexuality, identity and transformation. Muller uses symbolic elements in her sculptural works and combined installations. Her way of working and her use of materials often result in an aesthetic that is at odds with the painful subjects she handles.
