

**Jan Van Oost (Deinze 1961)**

**Gestalt, 2013**

Installation - old mirror with sculpture (painted plaster with glass eye) and a light spot  
1000 x 650 x 600 mm.

With certificate from the artist

**Artist description:**

During his training as a painter, Jan Van Oost discovered that he had a preference for sculpture. He is fascinated by the effect of space, the sense of movement, and the dialogue between the work of art and the space in which it finds itself. His works are made from everyday objects and materials. They are confusing and turbulent works; death lurks behind a façade of opulence and outward appearance.

Mortality is a recurrent theme in his work.
